CHRONIC PAIN MANAGEMENT AND INTERVENTIONAL TECHNIQUES

Date: Thursday 20 April 2017
Time: 6.30pm – 8.30pm | Registration 6.00pm
Location: Cellar 47 170 High Street Shepparton 3630
Presenter/s: Dr Symon McCallum | Anaesthetist and Pain Specialist Precision Brain, Spine and Pain Centre

Overview
This interactive presentation aims to identify pain management strategies, pearls and pitfalls in the treatment of individuals with chronic pain. It will cover the diagnosis and investigation of a range of pain syndromes, as well as the pharmacological and interventional options available.

Learning outcomes
1. Identify the presentation and diagnosis of common chronic pain syndromes
2. Prepare a treatment algorithm for chronic pain management in the community setting
3. Recognise the role of neuromodulation, including spinal cord, occipital nerve and dorsal root ganglion stimulation.
