Overview

An opportunity for practice managers and practice nurses to review and have input into the development of GP clinic chronic disease management resources. The resources will be made available to all clinics within Murray PHN to improve efficiency and effectiveness of chronic disease management initiatives within the clinics. Please note that the aim of this event is not to create external resources such as pathways, it is for internal clinic resources only.

Participation in this event may address the following RACGP Standards for General Practices:

- 1.2.2 Informed patient decisions
- 1.3.1 Health promotion and preventive care
- 1.4.1 Consistent evidence based practice
- 3.1.1 Quality improvement activities
- 3.1.3 Clinical governance
- 3.2.2 Qualifications of clinical staff other than medical practitioners

Learning outcomes

- Review chronic disease management clinical guidelines, MBS schedule, and other resources
- Determine the types of resources needed for chronic disease management in GP clinics
- Develop internal resources to support chronic disease management in consultation with peers
