

HIGH ST XRAY UPDATE

An Australian Government Initiative

Date: Tuesday 18 October 2016
Time: 7.00pm – 9.00pm | Registration and dinner 6.30pm
Location: High St Xray, 149-151 High Street, Bendigo

Speaker 1: Dr Peter Lange M.D., MRCP (UK) FACR, FRANZCR | Radiologist
Topic: Sense and Sensitivity | The role of Ultrasound (US) versus MRI in MSK imaging

Learning outcomes

- Compare the strengths and limitations of US in the investigation of pathologies of the knee and shoulder.
- Outline the capabilities of MRI in the investigation of pathologies of the knee and shoulder.
- Describe the role and limitations of plain X-Rays and CT in imaging knee and shoulder pathologies.
- To be able to use X-Rays, CT and US and MRI appropriately in an efficient and cost effective manner to investigate and manage diseases and injuries of the knee and shoulder*

Speaker 2: Dr Reza Garzan M.D., FRACP, FAANMS | Nuclear Medicine Physician

Topics: Myocardial Perfusion Study and Bone scans and Thyroid scans in General Practice

Learning outcomes

- Describe the appropriate use criteria for cardiac radionuclide imaging, and the principles of performing and interpreting myocardial perfusion studies
- Outline some of the common applications of bone scans in general practice
- List common indications and applications of thyroid scans
