Overview

This two-day training aims to develop a skilled workforce that is better equipped to support people who experience co-occurring mental health and substance misuse issues. Participants will gain an understanding of the spirit of motivational interviewing (MI). A range of exercises and video material will be used in this training session.

Learning outcomes

The training will introduce participants to the four stages of MI, and the core OARS micro-skills (open-ended questions, affirmations, reflections and summaries). This training qualifies for 12 CPD points.

Please email events@murrayphn.org.au if you have any questions about the event. If you find yourself unable to attend after you have RSVP'd, it would be appreciated that you cancel your registration via the Eventbrite platform. This assists organisers and sponsors to better manage the event and maintains credibility of Murray PHN's CPD program.
