

**Do you
have a
health care
story to
share?**

**The Sustainable
Rural Health
Project**

BULOKE | LODDON | GANNAWARRA

WEDDERBURN

Help shape our local health system

We are seeking health care consumer or carer stories so that we can better understand local people's experiences of accessing health care services in the Buloke, Loddon, and Gannawarra Shires.

The aim of the project is to co-design and trial health care services that meet local peoples' health needs and priorities and that can be delivered in communities over the long term.

We are wanting to conduct interviews with adults (18 years and older) who have experiences to share of being a patient and/or a carer accessing health care services in the Buloke, Loddon and Gannawarra region.

Interviews will take place either face-to-face, by phone or video call, and will take approximately 60 minutes.

People who participate in an interview will receive a \$50 grocery voucher for their time.

If you're interested, please contact the project coordinator Dr Nerida Hyett nhyett@murrayphn.org.au or call/text 0457 257 313.

For further information about the project, see murrayphn.org.au/SustainableRuralHealthProject
